

CANCER SUPPORT

Cancer Care Center supports cancer patients on their way back to vitality. Physically, psychologically and socially. Before, during and after treatment.

WHAT IS CANCER CARE CENTER?

Cancer Care Center focuses on anyone touched by cancer. With multiple locations, we provide coherent multidisciplinary primary care consisting of physical and psychosocial support, nutritional advice and assistance with wellness, relaxation and reintegration.

**PHYSICAL
SUPPORT**

**PSYCHOSOCIAL
SUPPORT**

NUTRITION

**COMPLEMENTARY
CARE AND
REINTEGRATION**

FOR WHOM?

For men and women, in all ages and with all forms of cancer. Both before, during and after treatment. Pre-treatment, we support you, so you go into this period as strong as possible – both physically and mentally. During and after treatment we help you regain or retain your vitality. Even if healing is no longer possible, in the palliative and terminal phase, we are there to safeguard your quality of life as much as possible.

OUR APPROACH

1

You make an appointment with one of our care managers

2

Together with you, we draw up a personal care plan

3

Our care providers support you on your way to greater vitality and an improved quality of life

OUR SERVICES

Cancer and its treatment have a considerable impact on physical health as well as on psychological and social well-being. Many patients experience symptoms (sometimes long-term). The most common ones fall into one of the categories shown on the right.

We offer a varied and specialised range of care disciplines to help or relieve these symptoms.

These include various forms of physiotherapy, psychological counselling and dietary advice, as well as acupuncture, mindfulness, skin therapy and other services.

Not all disciplines are offered at all locations, but we can always refer you to other locations or external healthcare providers. For a full overview, please visit our website: www.cancercarecenter.nl

Fatigue

Reduced fitness, strength and mobility

Pain and lymphoedema

Anxiety, depression and uncertainty

Social participation issues
